MUJEEB RAHMAN

Computer Lab Assistant | Systems & Network Administration | Web Deployment

Kannur, Kerala, India | Email: mujisworld09@gmail.com | Portfolio: mujeeb-rahman-protfolio.vercel.app

PROFESSIONAL SUMMARY

Dedicated Computer Lab Assistant and Student Administrator with hands-on experience maintaining lab workstations, configuring enterprise network services, deploying applications, and automating terminal software distribution.
Proven track record managing pfSense firewalls, Samba Active Directory, Proxmox VE hypervisors, and Next.js platforms.

TECHNICAL CORE COMPETENCIES

Networking & Infrastructure: pfSense, RADIUS Billing, Samba Active Directory, NFS Mounting, LVM Storage, FOG Server, Veyon

Virtualization & Systems: Proxmox VE, TrueNAS, Ubuntu Server, Kali Linux, Windows Unattended Batch Scripting

Hardware & Terminals: Custom Desktop Assembly, Intel H410 Chipset Platforms, NVMe SSD Performance Optimization

Web Development & Cloud: JavaScript, TypeScript, React, Next.js, Firebase Auth & Firestore, Git, GitHub CI/CD, Vercel

Multimedia & Layout Design: Adobe Creative Cloud, Filmora, Canva, A3 Tabloid Editorial Print Layout, Video Subtitling

PROFESSIONAL EXPERIENCE

Computer Lab Assistant & Student Administrator

Campus Digital Computer Lab - Kannur, Kerala | 2024 - Present

- Oversee daily operations, OS deployment, and maintenance across 30+ Intel H410 lab workstations.
- Automated multi-terminal provisioning using unattended silent batch scripts for VS Code, Python, Adobe CC, and Veyon.
- Configured and deployed pfSense firewall rules, captive portal authentication with RADIUS, and Samba Active Directory.
- Deployed centralized PXE network imaging via FOG Project over extended LVM dynamic partitions and NFS storage pools.
- Designed organizational publication layouts, A3 tabloid event prints, and video promotional media.

KEY ENGINEERING & DEPLOYMENT PROJECTS

Automated Lab Provisioning Suite | *Windows Batch Scripting, Silent Installers, Veyon*
- Engineered modular unattended batch deployment scripts, reducing setup time per workstation from 45 min to under 8 min.

Enterprise PXE Imaging & NFS Storage | *FOG Project, LVM, NFS Mounts, Linux*
- Set up centralized PXE image distribution server; configured dynamic LVM storage expansion and NFS network mounting.

Network & Access Management Topology | *pfSense, FreeRADIUS, Samba Active Directory*
- Implemented network gateway firewall with captive portal billing and Samba AD domain authentication controller.

ITQAN Friends Web Portal | *Next.js App Router, Firebase Auth, Firestore, Google Search Console*
- Architected and deployed production web portal at itqan-friends.vercel.app with complete sitemap and verified indexing.

Reelagram Media Platform | *Full-Stack JavaScript, Firebase Authentication & Firestore*
- Developed full-stack media platform with responsive interface, secure cloud authentication, and database persistence.

EDUCATION & EXTRACURRICULAR RECOGNITIONS

Student & Resident Administrator - Kannur, Kerala
- Active participation in English letter-writing competitions, historical-analysis presentations, and editorial publications.

PUBLICATIONS & MULTIMEDIA DESIGN

- Produced A3 tabloid print layouts, campus news bulletins, and institutional event banners using Adobe Creative Cloud.
- Video subtitling, audio syncing, and multimedia post-production using Filmora and Adobe Premiere.
